## WORK EXPERIENCE

Reputation.com, Chicago, IL

2017 - Present

### Web Developer

Develop and deploy responsive and dynamic web pages, using HTML, CSS, JavaScript, and Mustache.js. Integrate pages with REST API's to build dynamic interfaces powered by JavaScript. Serve as a consultant to clients where I am in charge of scoping, implementing, and supporting change requests and bug fixes for web pages. Work cross-functionally with Product and Engineering in a junior capacity to ideate and engineer feature enhancements for our UI app using React.js. Design and maintain a library of pre-built templates that has cut development time by half.

2016 - 2017

### UI/UX Designer

In charge of designing wireframes and mockups for new web page requests.

## EDUCATION

Northwestern University, Evanston, IL

2012

### Bachelor of Arts

Communication Studies, English Literature minor

## PROFESSIONAL DEVELOPMENT

Udacity
