WORK EXPERIENCE

Reputation, Chicago, IL

2022 - Present — **Manager, Web Development**

Own web page delivery prioritization, planning, and escalations. Lead a team of web developers and QA Engineers to deliver web page templates and UI enhancements. Partner with Back-end Engineers and Implementation Managers to align on delivery requirements and track timelines. Continuously streamline our process to shorten delivery times while maintaining quality. Serve as a technical Subject Matter Expert for web page implementations.

2021 - 2022 — **Lead Web Developer**

Own the technical standards for web page deliveries. Transformed our delivery process to incorporate measurable and predictable metrics for success. Mentor and coach junior developers. Partner with Engagement Managers, key client stakeholders, and Back-end Engineers to scope and document web page project requirements. Collaborate with Product on feature enhancements.

2018 - 2021 — **UI/UX Developer**

SIM Partners acquired by Reputation.

SIM Partners, Chicago, IL

2017 - 2018 — **UI/UX Developer** *(Full-time)*

Build web page templates and UI enhancements using HTML, CSS, jQuery, Bootstrap, Handlebars templating, and AJAX/REST API integrations. Maintain and standardize a UI library of components to streamline deliveries with scalable code. Led accessibility standards creation and documentation.

2016 - 2017 — **UI/UX Designer** *(Contract, part-time)*
